

I want to thank you all, from the bottom of my heart, for all of the donations, and for helping us during our time of need. Usually, we are the people who donate, but this year we needed help, and someone to help us. We have been through so many hardships this year, from medical problems to our house catching fire, to financial. But, through it all, God has walked with us, and blessed us with wonderful people like you all, to be there and lend a loving hand to pick us up. By walking through the love of special people, God provides and emotionally provides even at the toughest times when hope starts to fade. May God bless you all, for your caring loving hearts!

Thank you Again.

Merry Christmas, & Bless you thru the New Year!

To whom it may concern,

I am truly blessed to be living among such giving people. People who give without thinking twice. you put a smile on my child's face and a tear in my eye. It's true, there are angels on earth. my family thanks you from the bottom of our hearts.

Sincerely,

one happy family!
